Summary

Dedicated and compassionate midwifery student with hands-on clinical training across major public hospitals in Ghana. Experienced in assisting normal deliveries and providing antenatal and postnatal care, with a strong focus on safe, respectful, evidence-based maternal and newborn care. Skilled in routine assessments, fetal monitoring, early identification of high-risk pregnancies and health education, and committed to improving outcomes for mothers and babies.

Clinical Experience

Student Midwife - Clinical Placements

Swedru Municipal Hospital | Mother and Child Hospital | Achimota Hospital | Greater Accra Regional Hospital | Korle-Bu Teaching Hospital

- Assisted in the management of normal birth deliveries across all five facilities.
- Supported midwives and doctors during labour, delivery and immediate newborn care.
- Monitored maternal and fetal wellbeing throughout labour and recorded findings accurately.
- Maintained a clean, safe and respectful environment for women and their families.
- Collaborated with multidisciplinary teams to ensure continuity of care.

Antenatal and Postnatal Care

- Provided comprehensive care to expectant mothers weekly, conducting routine antenatal assessments.
- Monitored fetal heart tones and screened for high-risk pregnancy complications.
- Offered postpartum counselling on exclusive breastfeeding and newborn care.
- Educated women on nutrition, danger signs in pregnancy, birth preparedness and family planning.
